

ÒNÀ TUNTUN

THE NEW WAY FOR LAGOS

THE FUNSO DOHERTY MANIFESTO

NDC 
NIGERIA DEMOCRATIC CONGRESS

Ona Tuntun (The New Way)

My Dear Lagosians:

For too long we have endured Government that is disconnected from the aspirations, hopes and pains of the people.

Though the Almighty God has blessed us with abundant human and natural resources, our leaders in Government, in whose hands those resources are entrusted, continue to prioritize narrow and self-serving interests over the welfare of the wider populace.

As a result, most Lagosians cannot make ends meet and more and more of us are daily sinking deeper and deeper into poverty.

Many of our young people face near-insurmountable obstacles to get started in life, to earn a livelihood and to rent a home, let alone dream of one day owning one.

Every single day, many Lagosians, young and old, die premature deaths due to easily preventable causes.

We have become accustomed to living, traveling and working in an environment that is hazardous, stressful and chaotic.

This is not normal.

It is what happens when a Government turns its back on the people.

In the coming general elections in 2027, I am asking for your vote because, when I am elected Governor of Lagos State, by God's Grace, I will change that.

On the next two pages of this document you will find specific concrete actions we will take, to make life much better for you, by the end of my first term in office.

These commitments are a part of our people-centered vision for Lagos named Ona Tuntun - The new way.

I encourage you to go through and retain this document. I also urge you to return to it and use it to hold me to account, at the end of my first term in office.

May God keep us till then.
Your Incoming Governor,

Olufunso Adeshina Doherty
Nigeria Democratic Congress
Governorship Candidate for Lagos State
September, 2026
